React Native Task 1: List-To-Do

Screenshots of Design

Colors and Fonts Used

Colors:

- **Background Color:** #E8EAED (Light Gray)
- **Task Background:** #FFF (White)
- **Border Color:** #C0C0C0 (Gray)
- **Button Background:** #FFF (White)
- **Task Indicator:** #55BCF6 (Blue)

Fonts:

- **Section Title:** Font Size 24, Bold
- **Task Text:** Default Font, Max Width 80%
- **Add Button Text:** Font Size 24

Code Used

App.js

```
import React, {useState} from 'react';
import { Platform , KeyboardAvoidingView, StyleSheet, Text, View, TextInput,
TouchableOpacity, Keyboard, ScrollView } from 'react-native';
import Task from './components/Task';

export default function App() {
  const [task, setTask] = useState('');
  const [taskItems, setTaskItems] = useState([]);

  const handleAddTask = () => {
    if (!task || task.trim().length === 0) return; // Ensure task is not empty or undefined
    Keyboard.dismiss();
    setTaskItems([...taskItems, task.trim()]); // Trim spaces before adding
    setTask('');
  };

  const completeTask = (index) => {
    let itemsCopy = [...taskItems];
    itemsCopy.splice(index, 1);
    setTaskItems(itemsCopy)
  }

  return (
    <View style={styles.container}>
      { /* Added scroll view to enable scrolling when list gets longer than the page */ }
      <ScrollView
        contentContainerStyle={{
          flexGrow: 1

```

```
    }}
    keyboardShouldPersistTaps='handled'
  >

  { /* Today's Tasks */}
  <View style={styles.tasksWrapper}>
    <Text style={styles.sectionTitle}>Today's tasks</Text>
    <View style={styles.items}>
      {
        taskItems.map((item, index) => {
          return (
            <TouchableOpacity key={index} onPress={() => completeTask(index)}>
              <Task text={item} />
            </TouchableOpacity>
          )
        })
      }
    </View>
  </View>

</ScrollView>

{ /* A keyboard avoiding view which ensures the keyboard does not cover the items on
screen */}
<KeyboardAvoidingView
  behavior={Platform.OS === "ios" ? "padding" : "height"}
  style={styles.writeTaskWrapper}
>
  <TextInput style={styles.input} placeholder='Write a task' value={task}
onChangeText={text => setTask(text)} />
  <TouchableOpacity onPress={() => handleAddTask()}>
    <View style={styles.addWrapper}>
      <Text style={styles.addText}>+</Text>
    </View>
  </TouchableOpacity>
</KeyboardAvoidingView>

</View>
);
}

const styles = StyleSheet.create({
  container: {
    flex: 1,
    backgroundColor: '#E8EAED',
  },
});
```

```
tasksWrapper: {
  paddingTop: 80,
  paddingHorizontal: 20,
},
sectionTitle: {
  fontSize: 24,
  fontWeight: 'bold'
},
items: {
  marginTop: 30,
},
writeTaskWrapper: {
